

# Build Your Future

with Technology at Southeast Technical Institute

**FREE Just for 11-13 yr old girls!**

Have you ever wondered who created the SIMs or Star Dolls games that you love to use in building your own home, world, people? Do you have an idea for a new type of kids game, or want a part in the next wave of computer games that your friends play? Would you like to tell a story with your own digital camera images or make movies of you and your friends? Explore the technical possibilities at an STI Computer Camp for Girls on June 11 and 12, 2007. At this camp you will learn and play with technology that could shape your future:
